

## Changes to WMO-No.-1060 *The Manual on the WMO Information System* to take effect from 15 May 2014.

Make the following changes to the XML versions of the code lists

- 1 Change the capitalization of the descriptions in the XML representation of the code lists to correspond to that in the Manual on WIS.
- 2 Remove nulls from the end of the XML representation of code lists.
- 3 Correct the spelling of “improved” in the description of code list entry “CI\_DateTypeCode\_revision” in code table "CI\_DateTypeCode"
- 4 Add two entries to the code table for "WMO\_CategoryCode" to correspond to the additions in Table 13 of Appendix C Part 2:  
spaceWeather  
atmosphericComposition

---

### Correct the documentation of how to specify a bounding box in gml

Make the following change to Paragraph 2.2.3 of Appendix C Part 2 to correct an error in the specification of the XPATH.

```
/gmd:MD_Metadata/gmd:identificationInfo/gmd:MD_DataIdentification/  
  \gmd:extent/gmd:EX_Extent/gmd:geographicExtentgmd:geographicElement  
/gmd:EX_GeographicBoundingBox
```

---

### Add category keywords

Add the following entries to the end of table 13 of Appendix C Part 2

	Name	Domain code	Definition
21.	spaceWeather	020	changing environmental conditions in outer space. Space weather describes the conditions in space that affect Earth and its technological systems.
22.	atmosphericComposition	021	the chemical abundance in the earth's atmosphere of its constituents including nitrogen, oxygen, argon, carbon dioxide, water vapour, ozone, neon, helium, krypton, methane, hydrogen and nitrous oxide

---

## Extend the applicability of WMOOther

Modify entry 4 in Table 14 of Appendix C Part 2 to remove the limitation of WMOOther to data intended for global distribution.

	Name	Domain Code	Definition
4.	WMOOther	003	Data <del>identified for global distribution via WMO infrastructure (GTS / WIS)</del> that is not covered by WMO Resolution 25 or WMO Resolution 40; e.g. aviation OPMET data. Data marked with "WMOOther" data policy shall be treated like "WMOAdditional" where a more precise definition of the data policy may be additionally supplied within the metadata. In all cases it shall be the responsibility of the data consumer to ensure that they understand the data policy specified by the data provider – which may necessitate dialogue with the data publisher for confirmation of terms and conditions.
